## POWER SUPPLY

**Mardom Decor power supplies** are an essential element in the lighting installation, lowering the socket voltage (230V) for LED strip voltage (24V). They come in 3 strengths:

**100 W**

**200 W**

**320 W**

### Comments:

You should not work on full overload of the power supply, it may cause the product to wear out faster and require replacement with a new one. You should keep a reserve of 15-20%.
